Supplemental Response

This is in response to a phone conversation conducted by the undersigned with Examiner Pond regarding the meaning of certain terminology in the claimed invention. In particular this will clarify the meaning of the phrase "predetermined time period" in that this phrase does not include the situation where an order for image products/services are placed at the same time the images are submitted. The predetermined time period is a set time period over which images may be received by a service provider. An example would be a month, a plurality of months or year.

Respectfully submitted,

Attorney for Applicant(s)
